

MIT Alumni website

User experience specification including user flows, sitemap, and annotated wireframes for the MIT Alumni website.

Final Version

Published June 10, 2016

by Dan Rukas (dan@mothdesign.net)

Change Log:

Class Notes – Pages: 9, 13, 44, 45

Updated the date sorting controller to reflect a date range rather than selecting a month/year.

Community List – Pages: 46, 47

Changed to a link list from a button menu to a slide-over menu.

Slice of MIT – Page: 25

*Created "logged-in" version of search results in design.
Search Results uses the generic category template*

Slice of MIT – Page: 29

*Removed topic list from branded header in design.
Added search functionality to slice masthead in design.*

Site Map – Pages: 6, 7

*Replaced 3.4 Career coaching with 3.4 Career Advisory
Added 3.6 Employee Relations
Added 6.7 Social Media*

Design system: Visually explore flow

Overview

The “*Visual story grid*” pattern, used on landing pages and the “next up” section of story pages, allows users to explore related content around a topic without traditional navigation.

Landing pages

A dynamic page that gathers multiple story types based on tags.

Story pages & “Next Up”

At the end of each story, the *Next up* section displays related story content based on tag.

Repeat:

Story pages / Next up

Users can continue to browse related stories.

Design system: Story types and tags

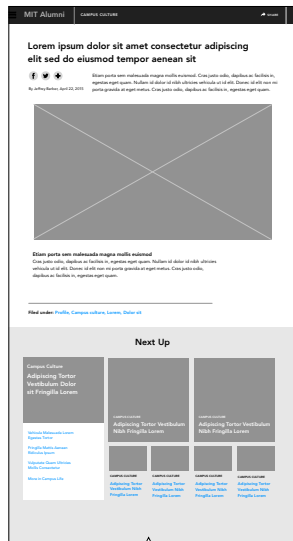

Overview

Each story type uses a unique design template customized for that content.

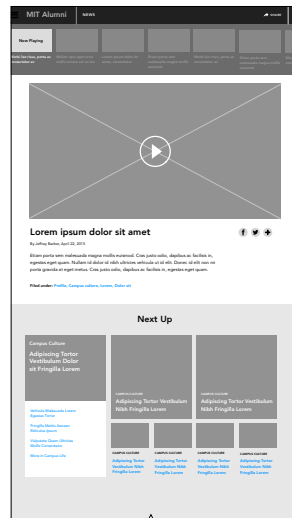

Article (or Podcast, Twitter chat)

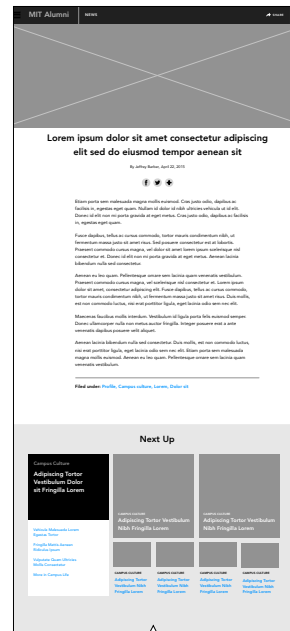

Gallery

Video

Feature

Tags

Stories can have multiple topic tags and multiple channel tags.

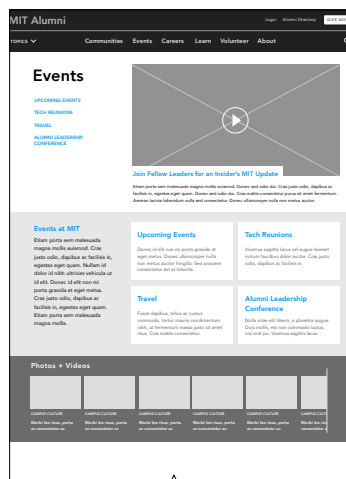

Topic tags:

represent what the story is about. “science”, “hacks”, “energy”, etc.

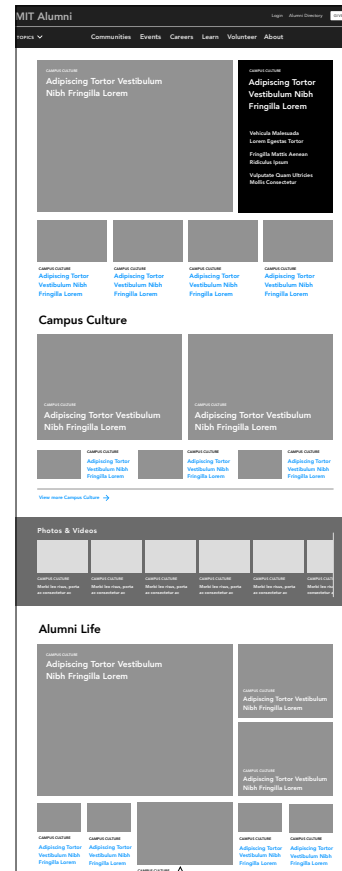

Design system: Landing pages

Dynamic landing pages present stories in a visual grid. Tags are used to gather content around a topic, channel, or story type.

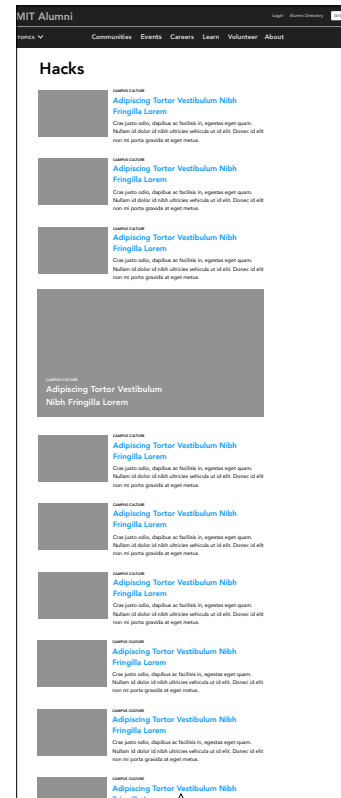

Content landing pages provide an overview of section content

Visual groups (dynamic)

Category generic (dynamic)

Category enhanced (dynamic)

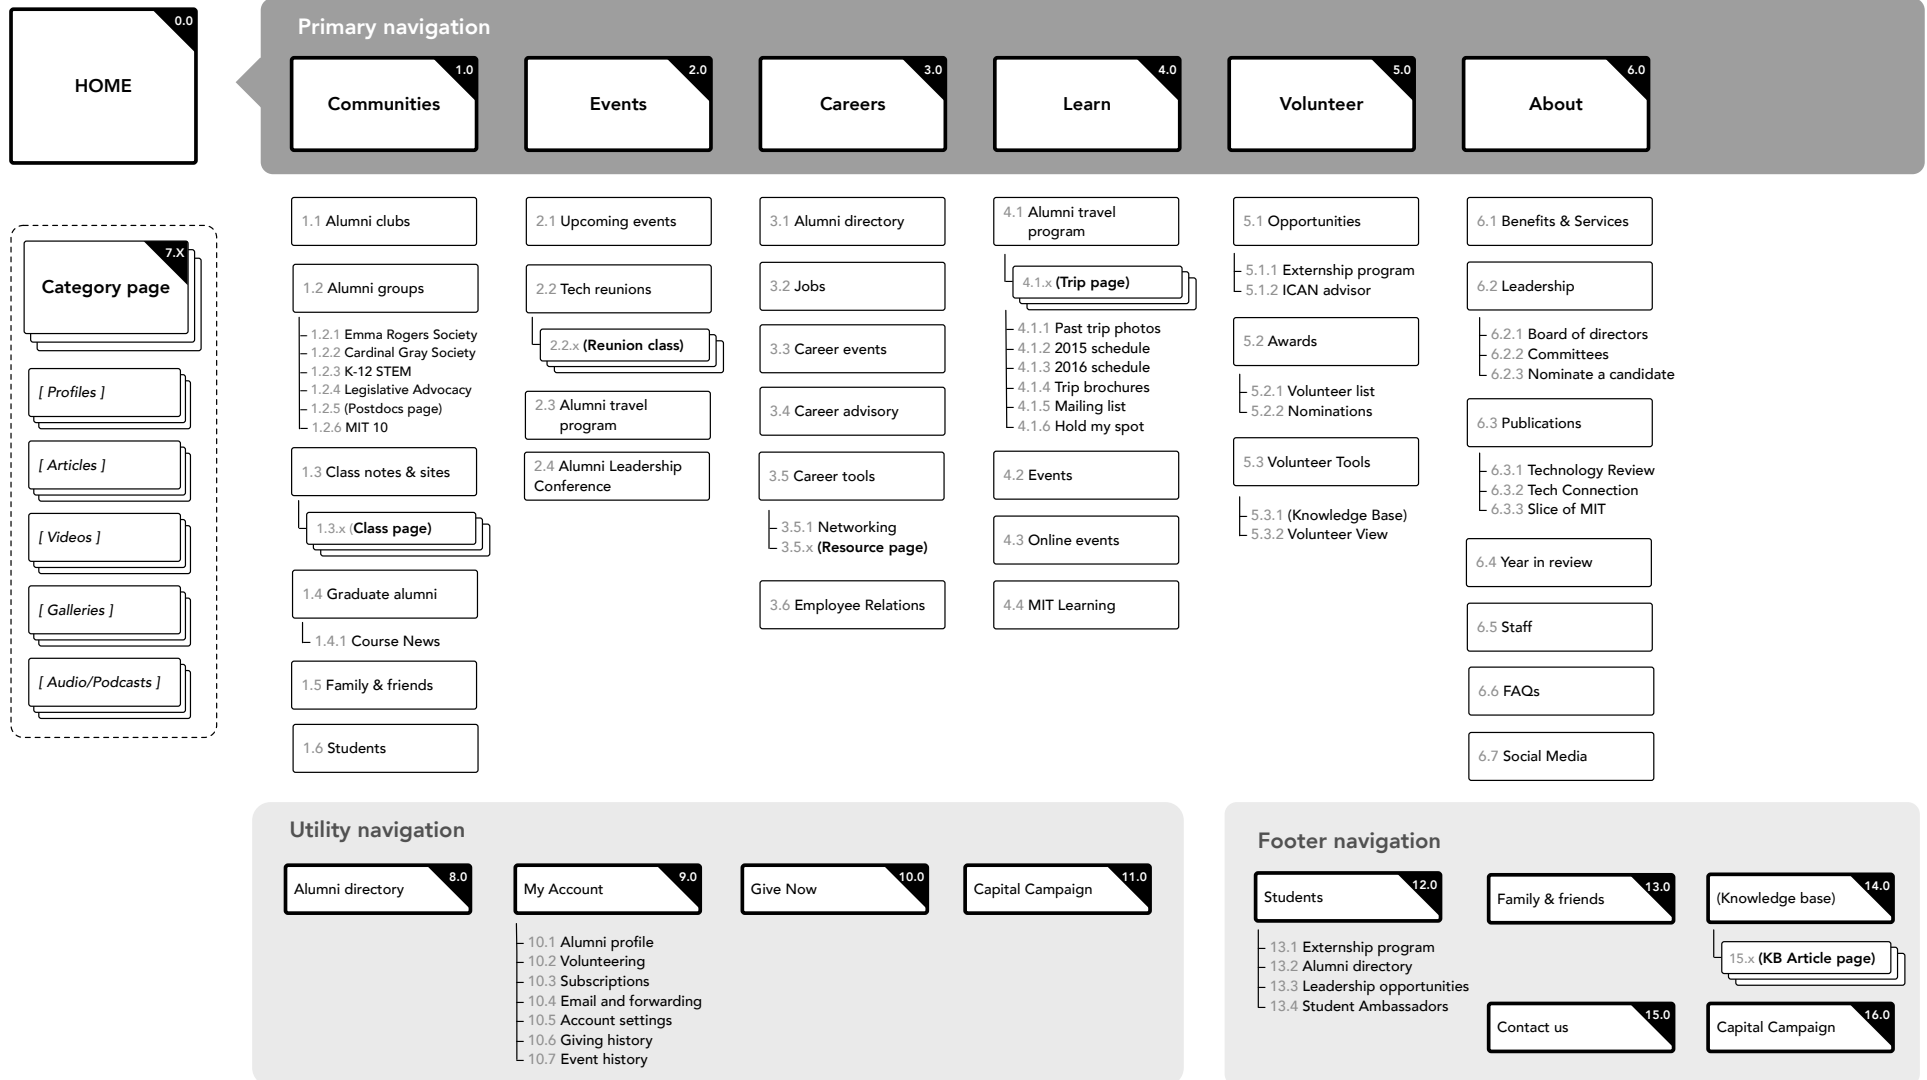

Landing page designs

A dynamic landing page can use one of 3 designs.

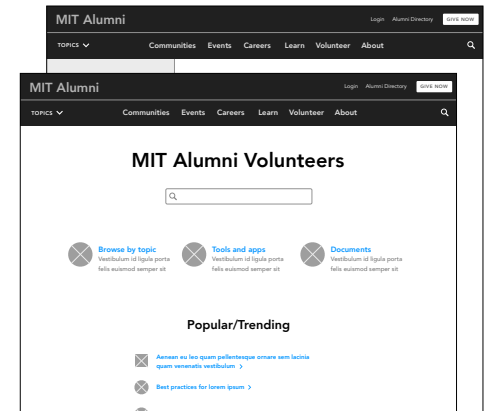

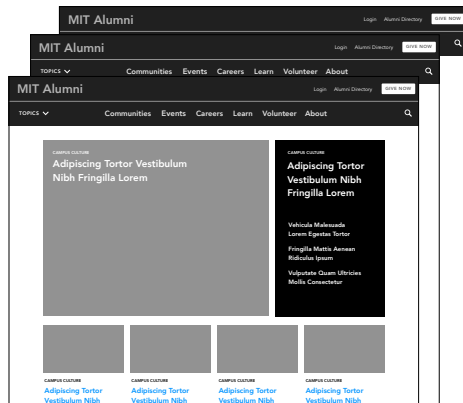

Templates range from visually rich to generic story lists.

Pattern: Feature story

VISUAL GRID

The largest element in a visual story grid. Includes category link, headline, and a large photo.

Pattern: Category summary

VISUAL GRID

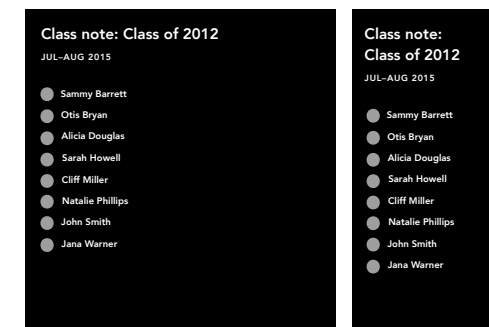

Gives an overview of the latest content in a section. Top story is featured with larger typography. Links to the category landing page. Can also be used to display links in a section.

Pattern: Class note summary

VISUAL GRID

Displays a list of alumni included in a class note, the class year, and published date. These will only appear if a user has access to view class notes and is logged in.

Pattern: Visual story

VISUAL GRID

CAMPUS CULTURE

[Adipiscing Tortor Vestibulum](#)
[Nibh Fringilla Lorem](#)

A standard story in a visual grid. Includes an image, category link, and headline.

Pattern: Short summary

VISUAL GRID

CAMPUS CULTURE

[Adipiscing Tortor Vestibulum](#)
[Nibh Fringilla Lorem](#)

Cras justo odio, dapibus ac facilisis in, egestas eget quam. Nullam id dolor id nibh ultricies vehicula ut id elit. Donec id elit non mi porta gravida at eget metus.

Includes a short summary of the story with image, category link, and headline.

Pattern: Carousel and CTA

VISUAL GRID

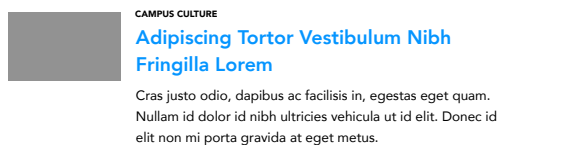

A flexible pattern that allows any content type or category in a condensed scrollable space.

CAMPUS CULTURE

[Adipiscing Tortor Vestibulum](#)
[Nibh Fringilla Lorem](#)

Pattern: Media flag

VISUAL GRID

A visual flag over any component to indicate a video, podcast, or gallery.

CAMPUS CULTURE

[Adipiscing Tortor Vestibulum](#)
[Nibh Fringilla Lorem](#)

CAMPUS CULTURE

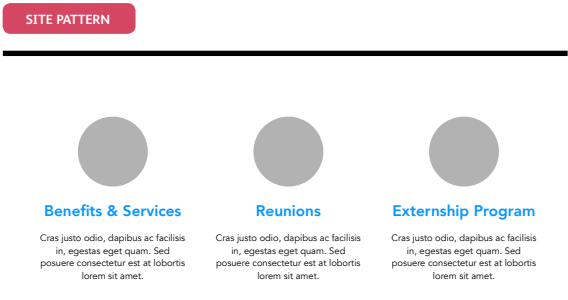

[Adipiscing Tortor Vestibulum](#)
[Nibh Fringilla Lorem](#)

CAMPUS CULTURE

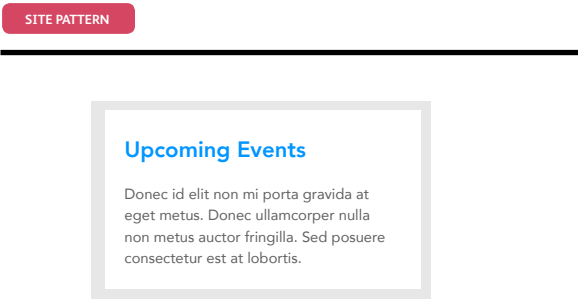

[Adipiscing Tortor Vestibulum](#)
[Nibh Fringilla Lorem](#)

Pattern: Featured entry points

Includes an image (or illustration), link, and short description.

Pattern: Navigation summary

Includes page title and a short summary. Used primarily on content section landing pages.

Pattern: Feedback token

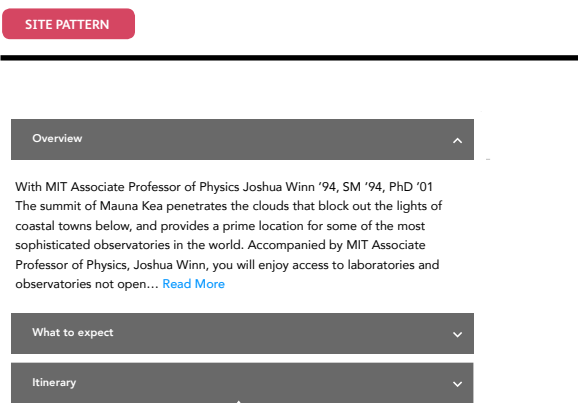

Displays currently applied filters with an option to remove.

Pattern: Event list

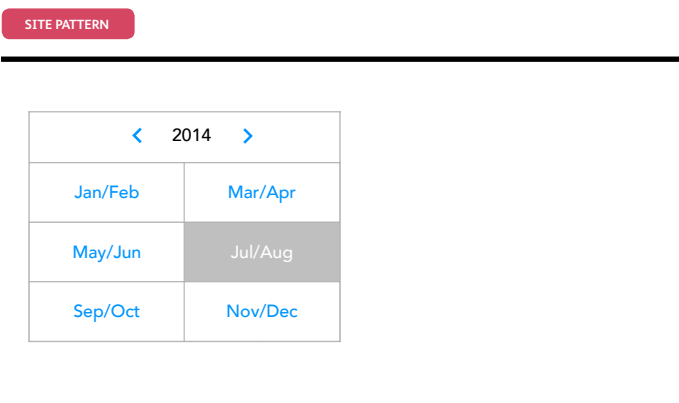

For detailed notes see “Events” template

Pattern: Accordion

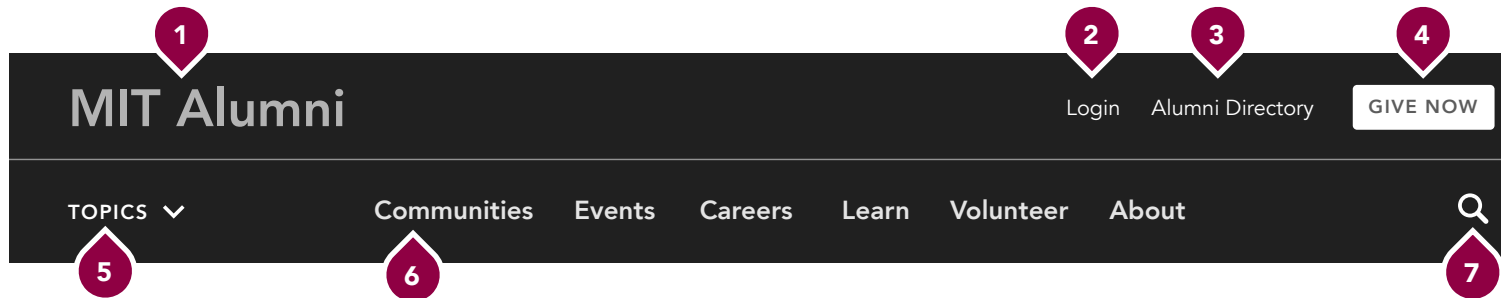

Tapping heading or arrows displays additional content.

Pattern: Year & month selector

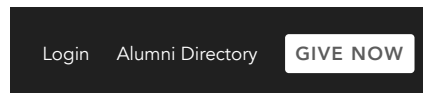

For detailed notes see “Class notes” template

Pattern: Navigation

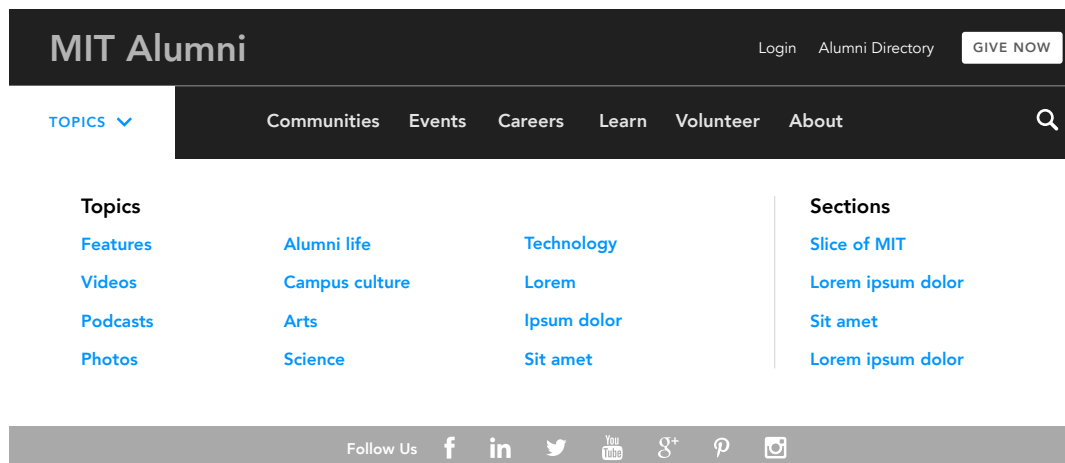

- 1 **MIT Alumni:** links to homepage
- 2 **My account:** links to the account website.
Note: label will read “Log in” when logged out

- 4 **Give now:** promotes the giving site as a primary call to action in the navigation
- 5 **Topics menu**
- 6 **Primary navigation menu**
- 7 **Search:** toggles the search box on and off.

- 3 **Alumni directory:** links to the directory website

Pattern: Condensed navigation

1 Color and site section context: The “MIT Alumni” background color can be changed to highlight the user’s current site section.

(content pages, events, media, blog, etc)

2 Current section: In condensed view, the user’s current section appears next to the logo. Links to the section’s landing page.

Overview: Persistently attached to the top of the screen as the user scrolls down all site pages

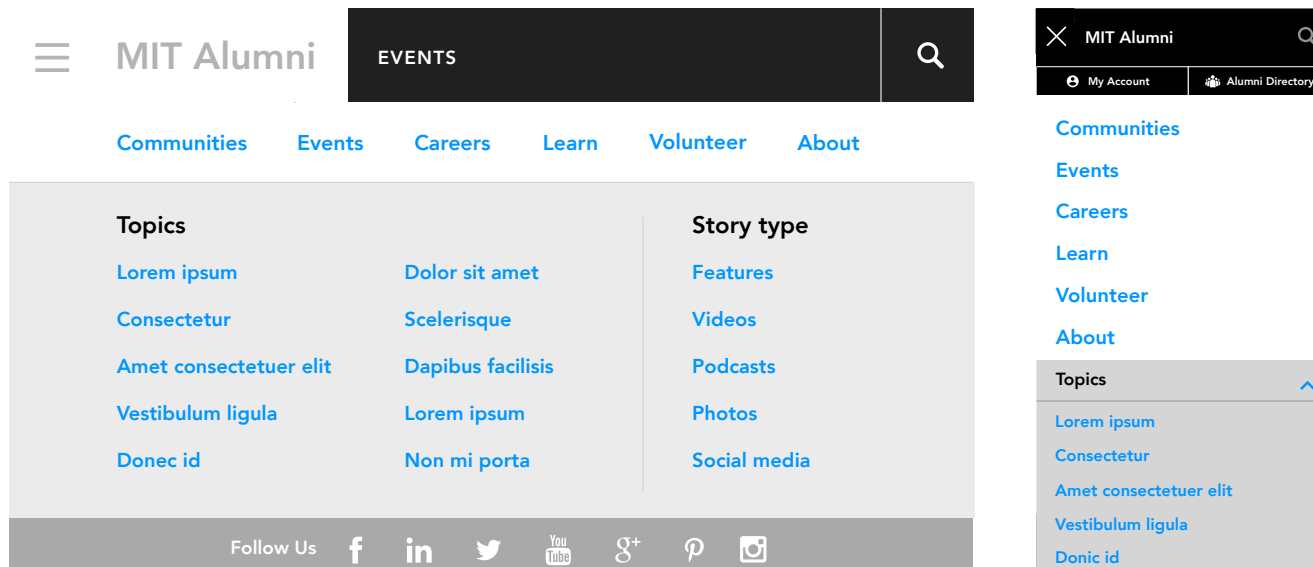

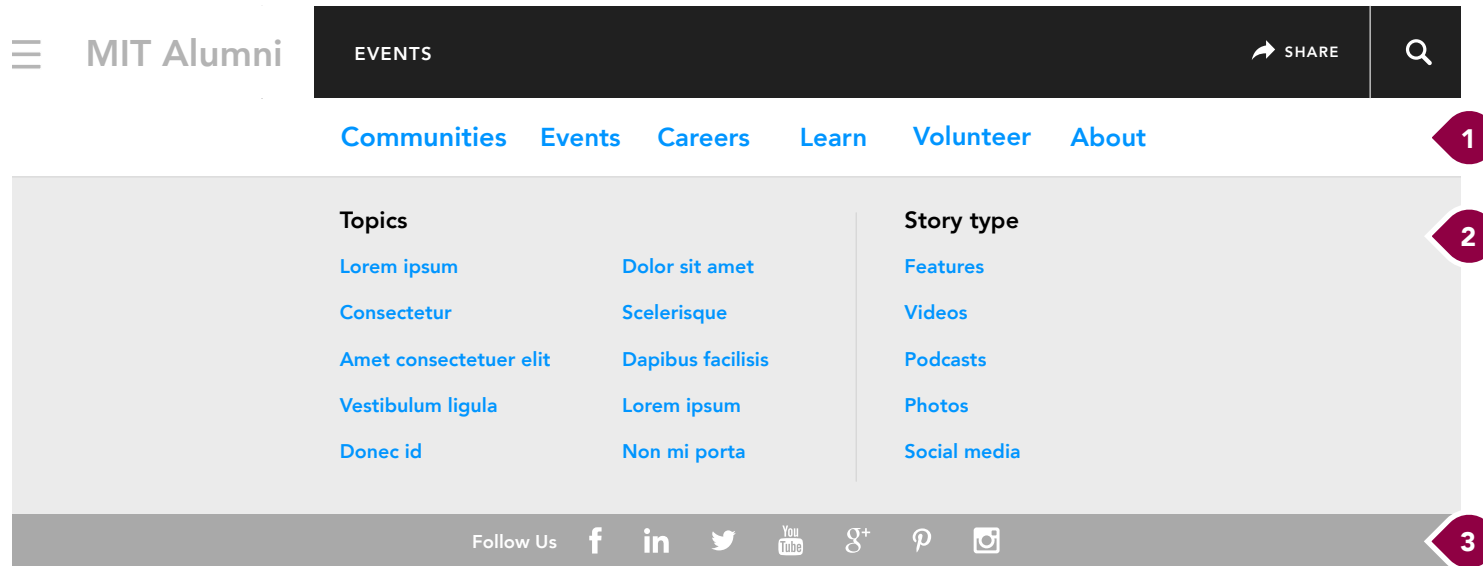

3 Share button behavior

4 Search behavior

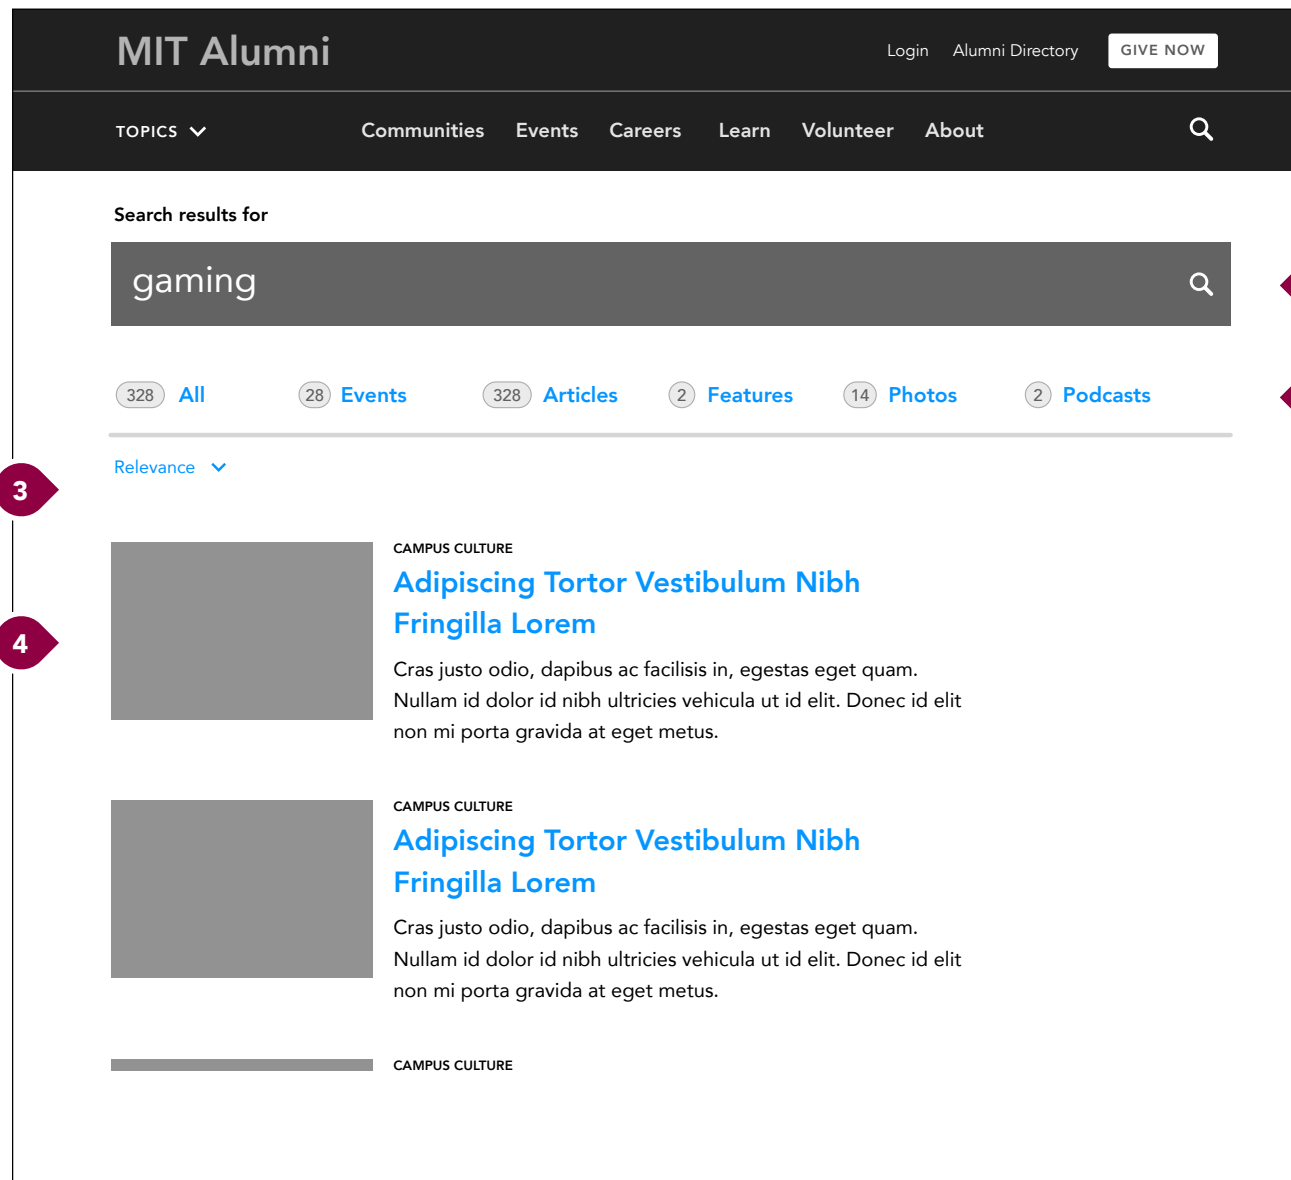

Pattern: Navigation open menu

Overview: The open state of the condensed navigation displays primary and topic navigation items.

- 1 Primary navigation
- 2 Highlighted topic groups and category links
- 3 Social channels

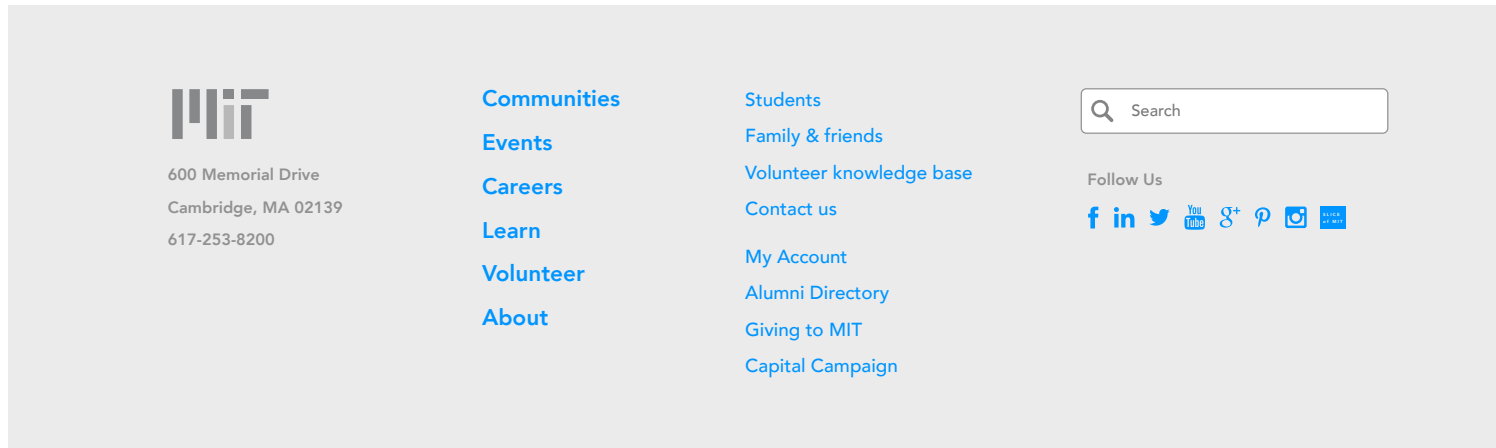

Pattern: Search results list and behaviors

Overview: Displays search results with optional “type” filter.

- 1 Search field & title**
- 2 Type filter:** Includes total number of results in a category.
- 3 Sort menu:** options include:
 - Relevance
 - Latest
- 4 Results list**

Pattern: Footer navigation

0.0 Homepage

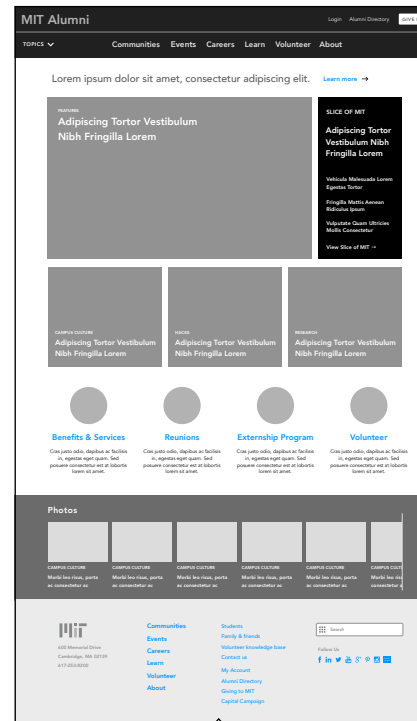

Overview

Large visual grids display current or promoted content from different site sections.

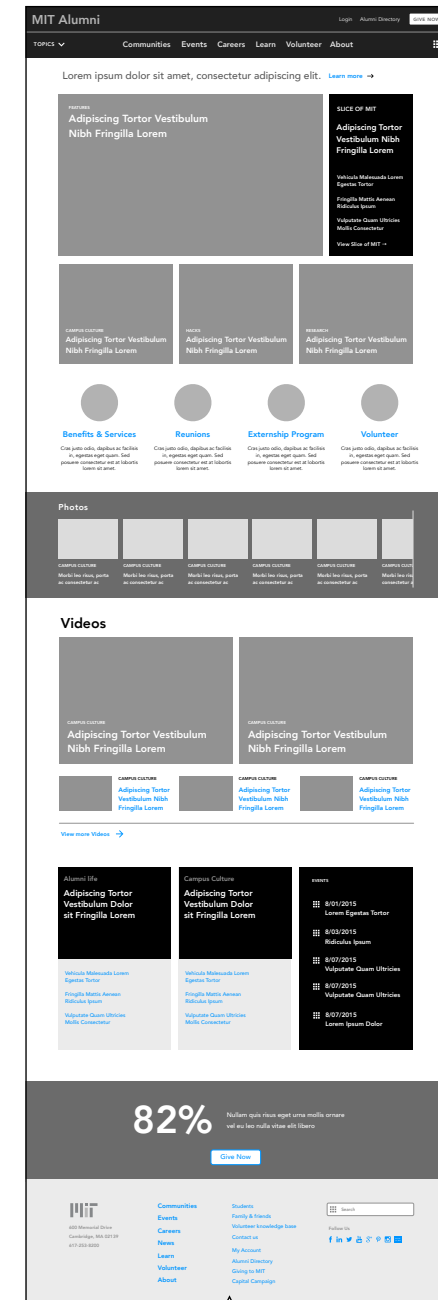

Flexible structure

Multiple visual grids can be used on the homepage to spotlight content in different site sections. See the pattern library for more details.

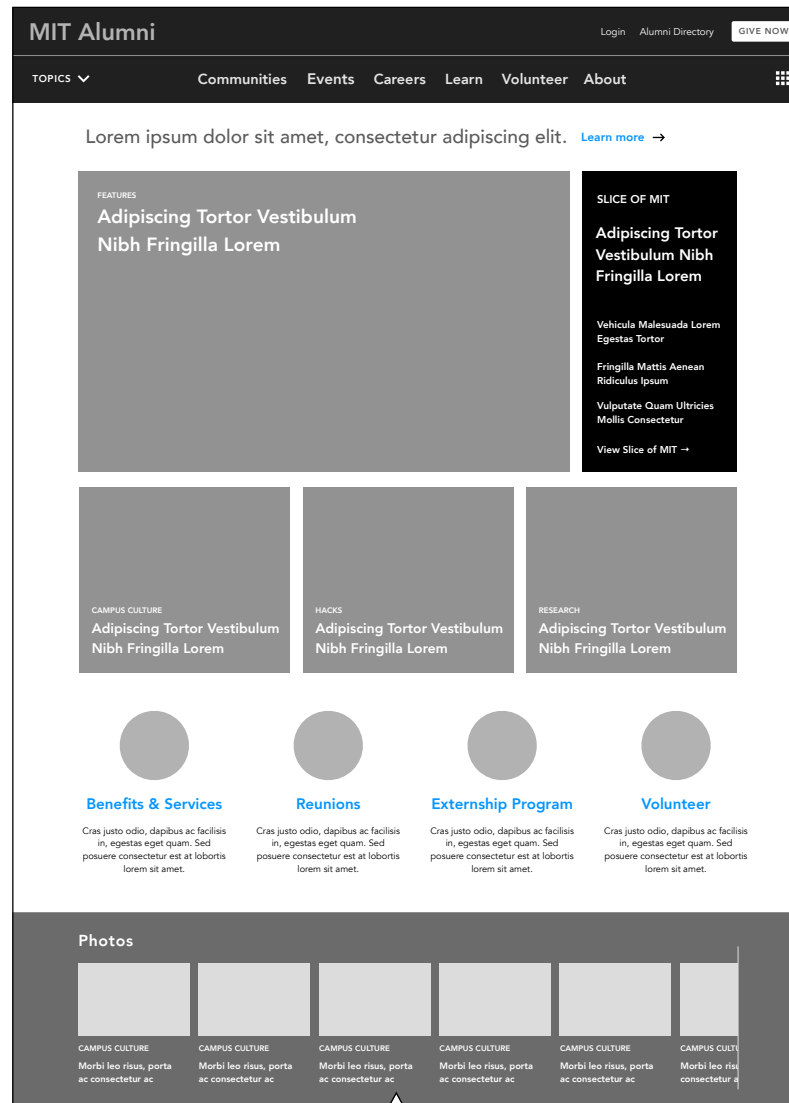

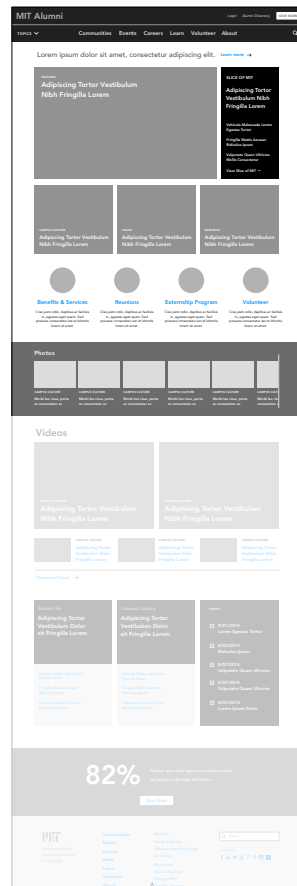

Homepage (basic)

With additional content sections

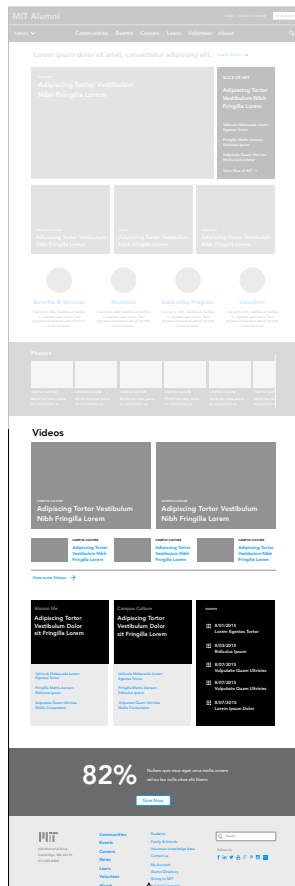

0.0 Homepage

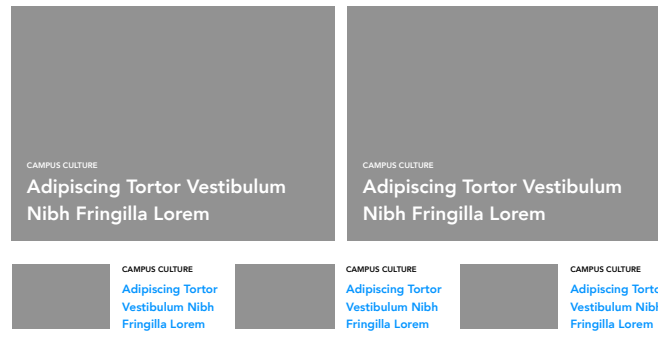

- 1 **Introduction statement:** links to the about section, MIT students, and Friends & Family.
- 2 **Visual grid:** links to featured and recent content.
- 3 **Featured entry points:** Includes an image (or illustration), link, and short description. Updated based on time of year or cycle.
- 4 **Content carousel:** Photo gallery examples shown.

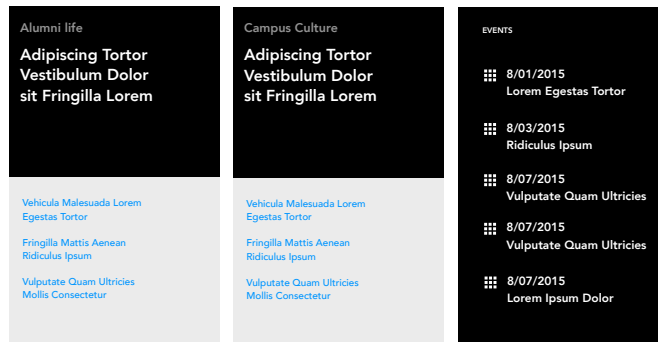

0.0 Homepage (continued)

Videos

1 2 Show / hide location filters

3 Location filter bar

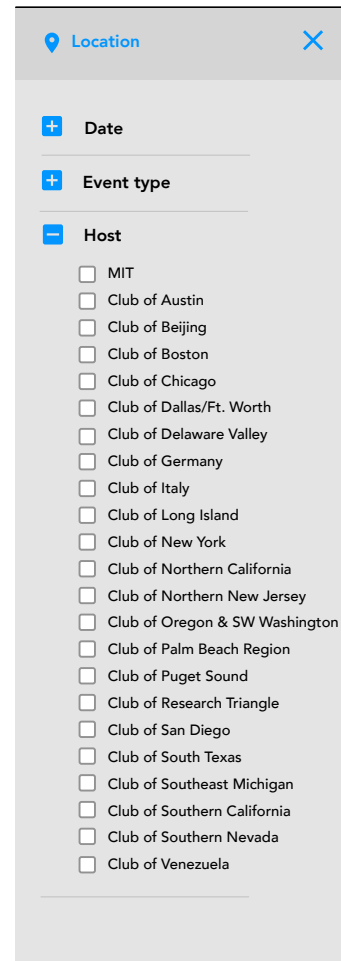

Pattern: Multi-select filters

Closed state

A vertical filter panel in its closed state. At the top is a header bar with a location pin icon, the text "Location", and a close "X" button. Below the header are three expandable sections: "Date" (collapsed), "Event type" (expanded, showing "Career", "Social", and "Learn" checkboxes), and "Host" (collapsed).

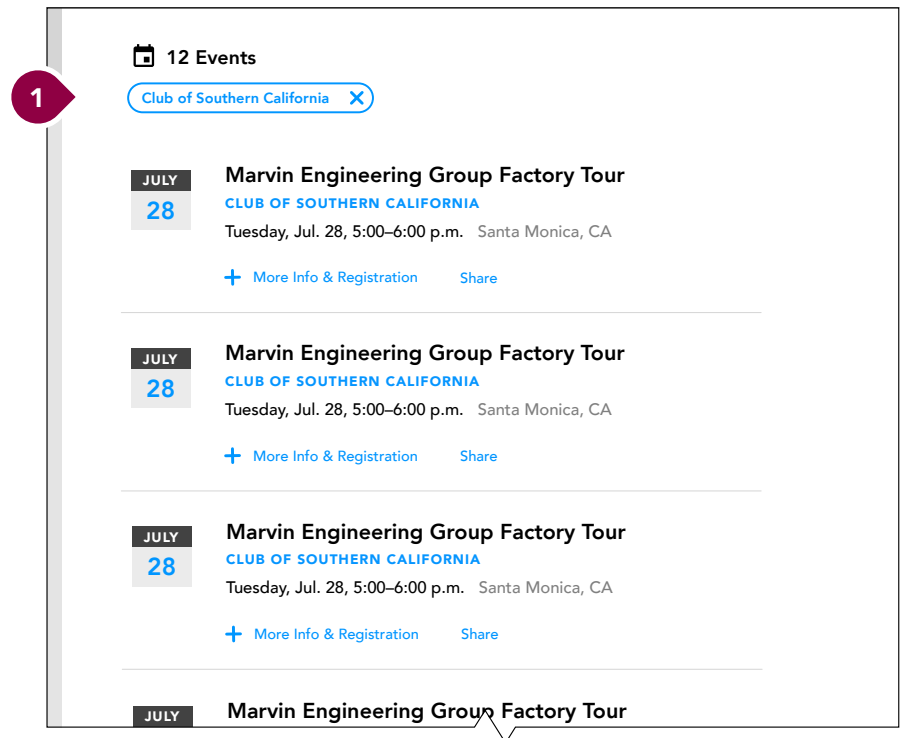

Open state

The same filter panel in its open state. The "Host" section is expanded, revealing a long list of checkboxes for various MIT clubs, including "MIT", "Club of Austin", "Club of Beijing", "Club of Boston", "Club of Chicago", "Club of Dallas/Ft. Worth", "Club of Delaware Valley", "Club of Germany", "Club of Italy", "Club of Long Island", "Club of New York", "Club of Northern California", "Club of Northern New Jersey", "Club of Oregon & SW Washington", "Club of Palm Beach Region", "Club of Puget Sound", "Club of Research Triangle", "Club of San Diego", "Club of South Texas", "Club of Southeast Michigan", "Club of Southern California", "Club of Southern Nevada", and "Club of Venezuela".

Pattern: Feedback tokens

Filter selected

A screenshot of an event listing interface. At the top, a purple circle with the number "1" points to a feedback token. The token is a pill-shaped button containing the text "Club of Southern California" and a close "X" button. Below the token, the interface shows a list of 12 events. The first three events are visible, each featuring a date badge for "JULY 28", the event title "Marvin Engineering Group Factory Tour", the host "CLUB OF SOUTHERN CALIFORNIA", the date and time "Tuesday, Jul. 28, 5:00–6:00 p.m.", the location "Santa Monica, CA", and two links: "+ More Info & Registration" and "Share".

- 1 Feedback token:** Displays current selected filters.
"X" clears the selected filter.

Overview ▼

What to expect ▼

Itinerary ▲

SATURDAY, JANUARY 17: FLY TO MAUI

Fly from your home city to Maui and join the group transfer to your secluded beach resort, the Makena Beach & Golf Resort, located at the base of Mount Haleakala. The balance of the day is unscheduled until the evening's welcome orientation and dinner. Makena Beach & Golf Resort (R, D)

SUNDAY, JANUARY 18: MAKENA, MAUI

Join a whale-watching cruise along the shoreline of Maui with the Pacific Whale Foundation to observe humpback whales that migrate from Alaska to Hawaii each winter. Also enjoy a private tour of the Maui Ocean Center, a three-acre tropical reef aquarium and marine science center with thousands of marine species that can be viewed in living coral reefs. This evening is free for you to choose from many excellent restaurant options in the area. Makena Beach & Golf Resort (B, L)

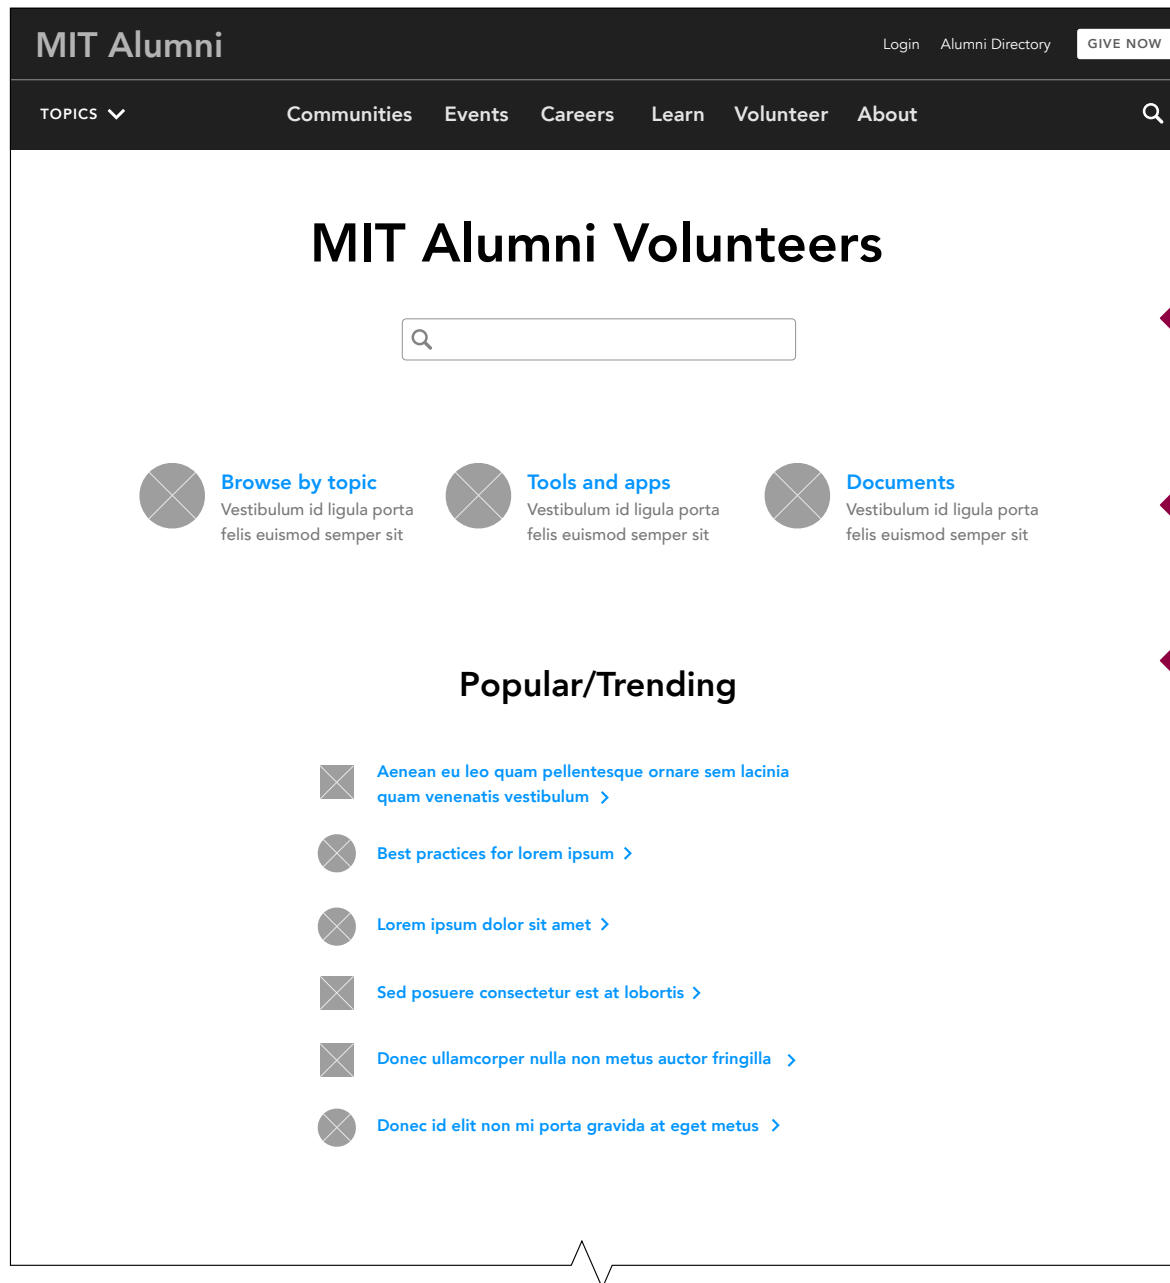

MONDAY, JANUARY 19: MAKENA

This morning depart for an exclusive behind the scene visit to Project Pan-STARRS (Panoramic Survey Telescope and Rapid Response System). One of the primary goals of Pan-STARRS is to discover and characterize Earth-approaching objects, like asteroids & comets, that might pose a danger to our planet through the use of wide-field imaging with very large digital cameras that can observe the entire available sky several times each month. Then embark on a tour of Haleakala National Park with a local naturalist. Search for native birds and endemic plants such as the Silversword and Sandalwood. At the summit, marvel at the moon-like volcanic crater. Return to the hotel mid-afternoon and relax and enjoy the resort facilities, a walk on the beach, or a swim in the ocean or pool. Dinner is on your own. Makena Beach & Golf Resort (B,L)

TUESDAY JANUARY 20: HAWAII VOLCANOES NATIONAL PARK

Fly from Maui to the Big Island of Hawaii. During a curator-guided tour of the

Template: Knowledge base landing (public state)

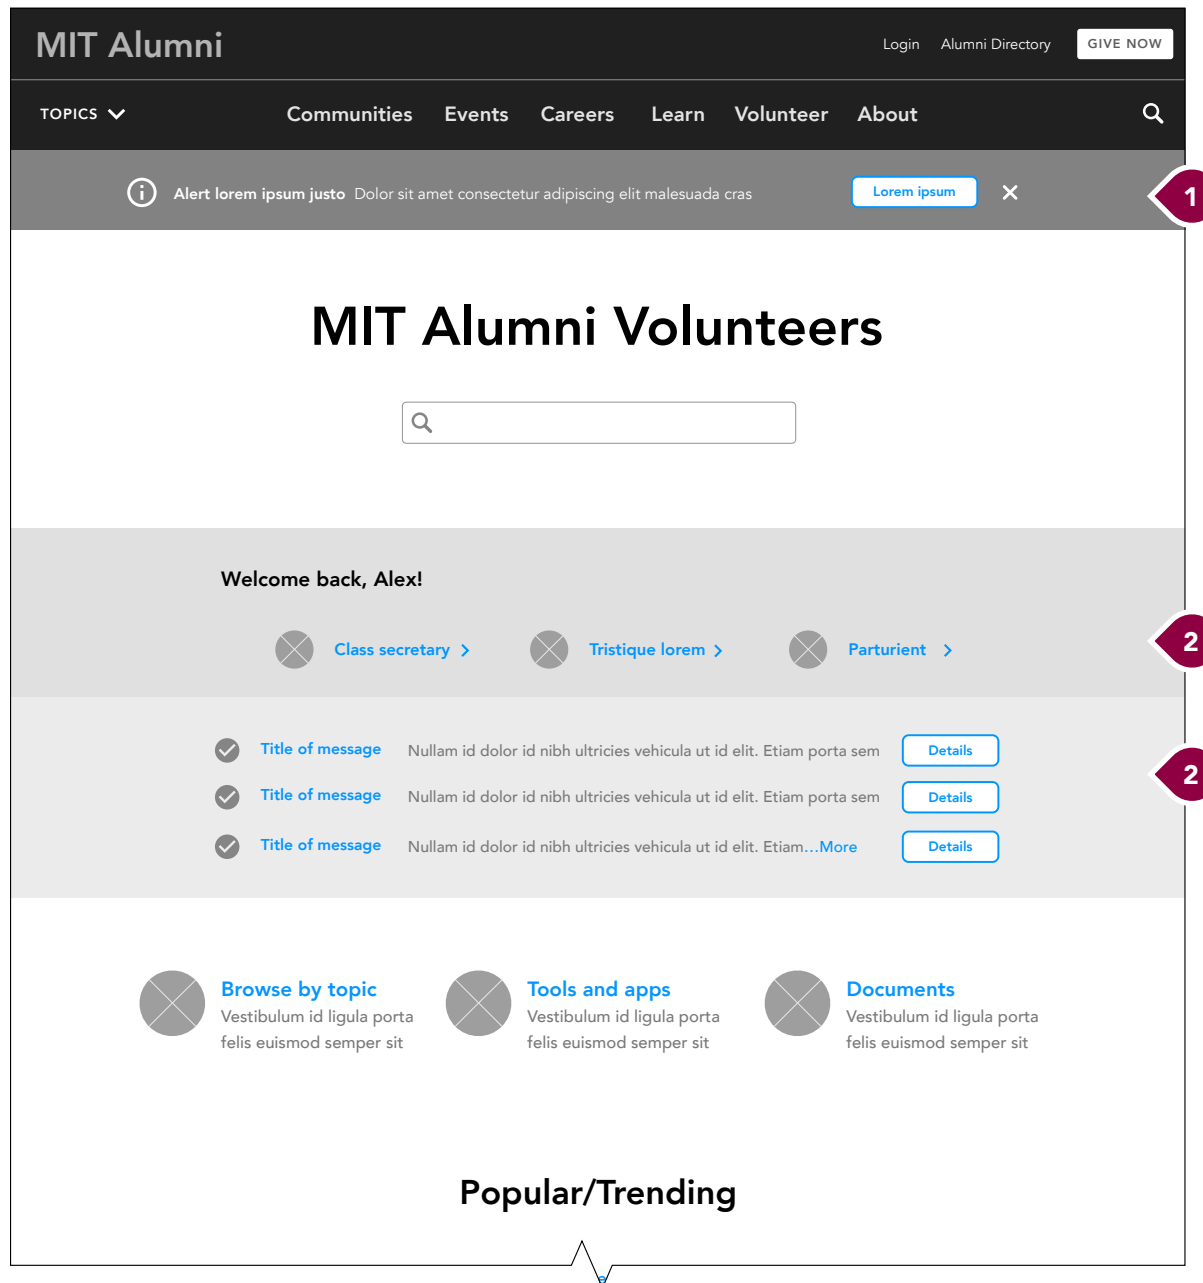

1 Search

2 **Category or topic navigation:** See next page for details.

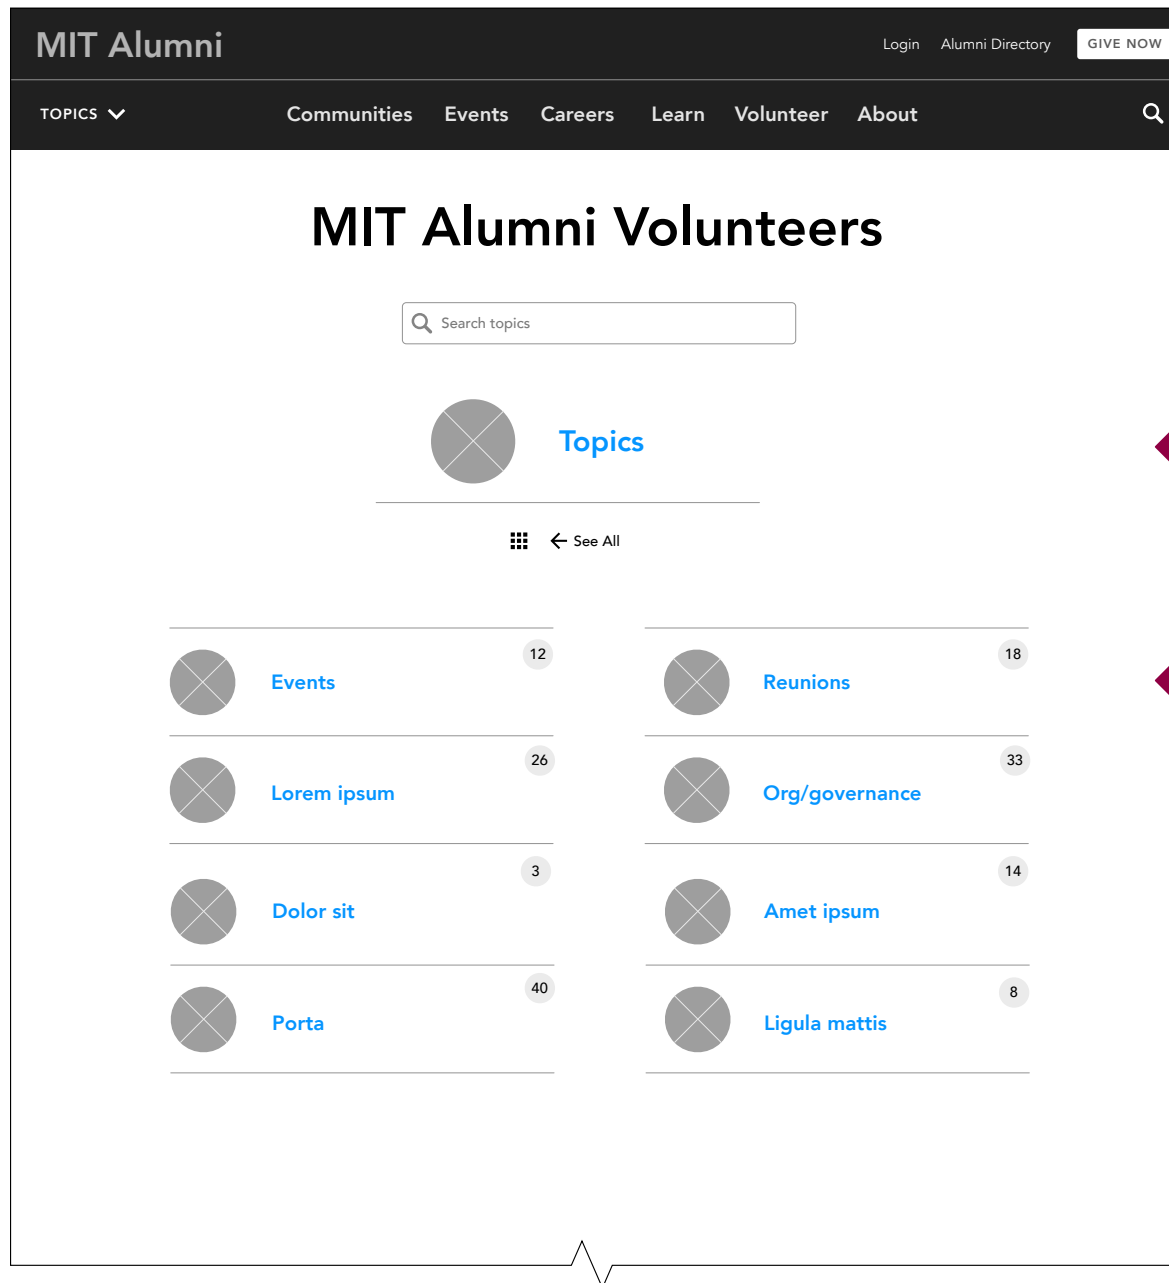

3 **Popular / Trending list:** highlights recently accessed and popular articles in the Knowledge base.

Template: Knowledge base landing (personalized state)

- 1 Site wide message banner:** Displays a short message with call to action. In this example: Volunteer role message
- 2 Links to class role sections:** Users will see links to all of the roles they have access to.
- 3 Message history list:** Displays the last three messages with an option to display all previous messages. If message text is more than one line, a “more” link expands to display the full message.

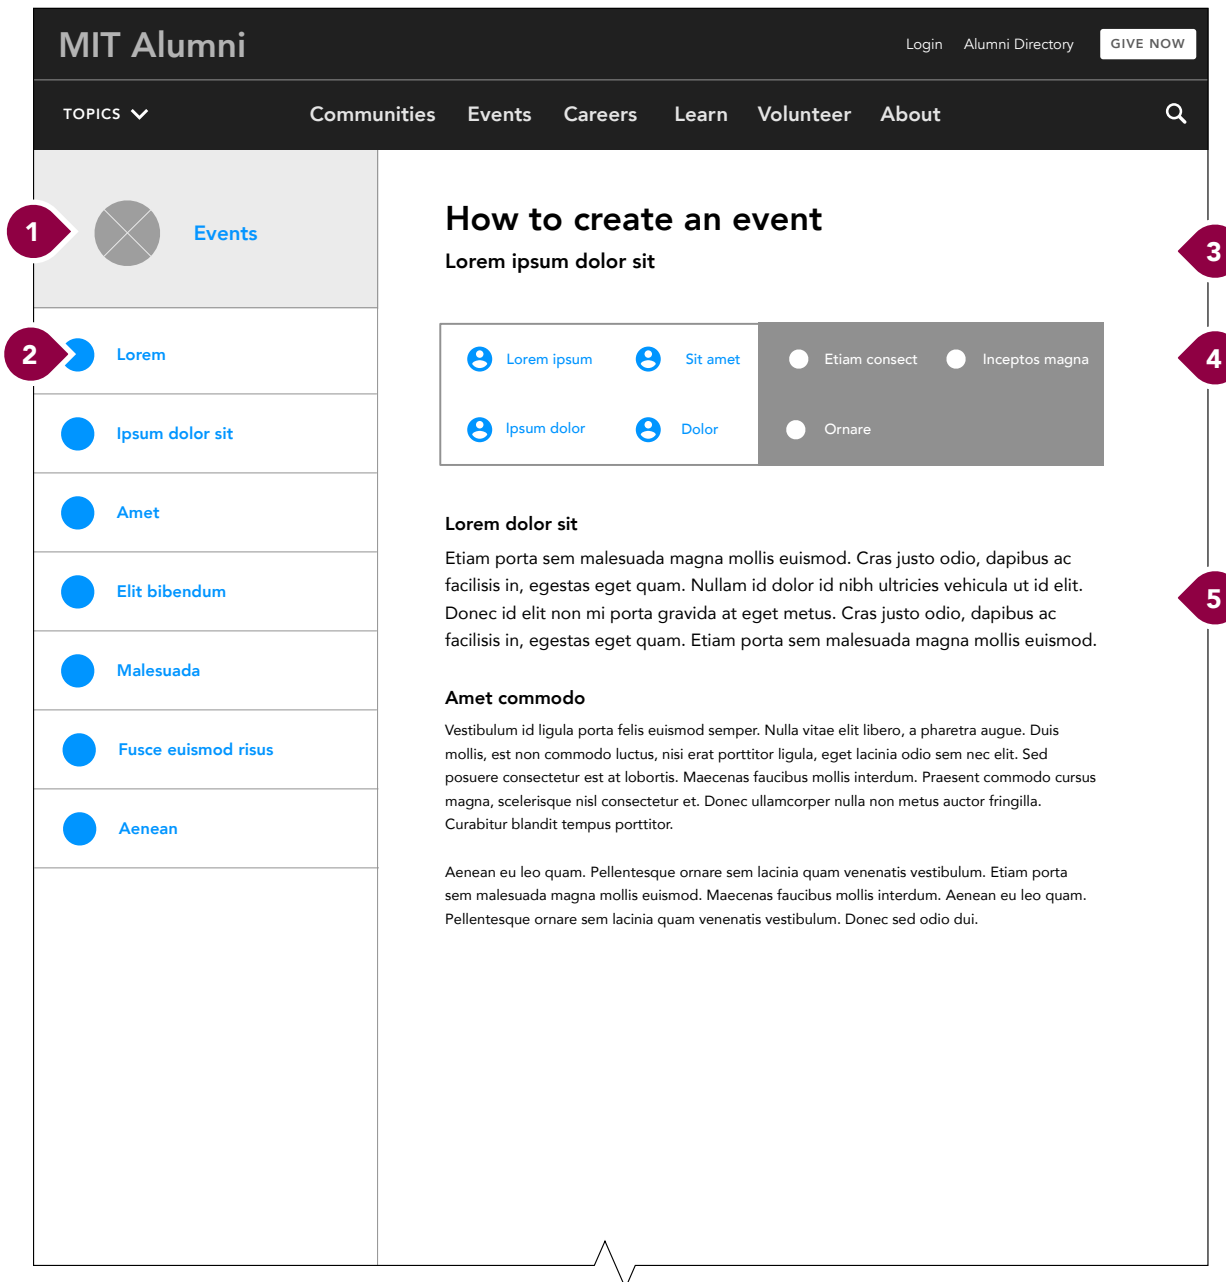

Content example: Topics (KB landing template)

1 Section title and back to home link

2 Topics navigation: highlights the number of articles in a section.

Template: Knowledge base article

1 Current topic

2 List of all topic articles

3 Article title

4 Content relationships

Roll: Displays a list of rolls this article is related to. Clicking the roll will link to this roll's section of the KB.

Topic: Displays a list of topics this article is related to. Clicking the topic will link to the topic's KB section.
